

ENGINE 56

Former house at 2214 Barry Avenue, that housed this company. It is believed that this picture was taken to show in what bad condition it was. Note fireman in alley pointing to a part of deterioration on the building.

Circa 1929

ENGINE 67
TRUCK 46

In former quarters on the north-east corner of Kilpatrick Avenue and Fulton St before the erection of present WPA house on the site. A strange factor of this house was it being built too narrow to accommodate two companies and so the truck used a front entrance, and the engine responded through a door off the alley into Kilpatrick Ave.

Circa 1929
